Predict Annual Budgets Will Zoom Higher Than In 1957

Estimates, Special Articles Must Be In By December 21

Detailed budget estimates are now being prepared by all town departments, following a mandate from the Finance Committee that all estimates must be prepared by Dec. 21.

Quoting the state law, the Finance Committee has notified all departments that budgets, fully broken down and explained; and special articles desired by the various boards and officials must be in hand by that date.

Thus in another six weeks, the full financial story for 1958 will be revealed, at least as estimated by the town officials.

Last year, initial budget requests and special articles considered by the Finance Committee soared to an unprecedented \$2,807,505. And when the town meeting had been completed, the voters had appropriated \$2,482,168 to run the town for 1957.

May Be Steep

Preliminary discussions by several boards indicate the figures may climb steeply again this year. The School Committee will start

Goblins, Witches Roam Tonight

Goblins and witches and assorted characters defying description will wander the streets of Andover tonight, as they gather for the traditional parade from Elm sq. to the Auditorium.

Set for 6:30, the parade will be led by the All-Girl Band of Andover High School — themselves dressed for the occasion.

And even as the parade gets underway in the center of town, similar activities will be starting in Ballardvale and North District.

In the center of town, the youngsters taking part in the parade will be admitted first to the auditorium, followed by other young people who want to take part in the festivities.

Seek Money To Drill 2 Wells

The Board of Public Works has decided to ask for funds to put down two test wells in West Andover, between Fish Brook and the river.

Along with \$254 remaining in the \$10,000 appropriation for exploration, the money would be spent to merely see if there is water at the locations. There will be no test pumping, nor will it be possible to actually tell whether there is even enough water to make testing practical.

But the move was recommended by consulting engineers Camp, Dresser and McKee, with the idea that additional money can be requested for testing if water is found.

A third well, near the sand pit well now being installed in Ballardvale, may provide some 500,000 gallons of water a day —

Monastery Will Be Built Here

A monastery for the Sisters of St. Claire, informally known as Sisters of the Poor, will be built in West Andover.

Now housed in Lowell, the Sisters will move into their new quarters in about two years, it was learned this week. Construction is expected to start within a year.

The building will be erected on a nine-acre site opposite the St. Francis Seminary.

It is understood that the building may cost as much as \$700,000 and will be similar to the monastery in Jamaica Plain.

The site is one recently purchased.

MIXED-UP BUSH THINKS IT'S SPRING

There's a crazy, mixed-up forsythia down on Ballardvale rd.

Poor thing doesn't know it's nearly winter — so it's in full bloom. Mrs. George Walkup, who owns the disturbed bush, reports some bystanders have been so surprised they've walked up and touched the bush to be sure it isn't paper.

Adding confusion to uncertainty, the bush doesn't grow in a southern exposure — rather, it's on the northeast side of the house where you'd least expect it to flourish this time of year. It usually blooms in the spring.

The Walkup's home is near the bad curve now being straightened by the town.

Band Girls Taking Orders For Candy

Members of the All-Girl Band are taking orders for boxes of candy, as part of a money-raising project sponsored by the band mothers.

The Band Parents' Club met last week to discuss several fund-raising projects. Tentative plans for a bakery sale were discussed, with the date to be announced later.

"SICKNESS IS A SORT OF OLD AGE"

• (Author's Name Below)

Each year new discoveries help to keep old age further away. You can live longer than was expected at your birth.

Your chief problem is to live a more sickness-free life, because each illness ages. Modern medicine and pharmacy now have valuable aids to keep you healthy. Serious sickness often can and should be prevented.

If you always consult your physician at the beginning of a sickness, before it becomes serious, he will prescribe the one particular medicine that will help you most. You can add many years to a healthier life by using your physician's ability to fight old age.

Andover High School will open its doors Sunday afternoon to welcome townspeople to an informal Open House and more formal program mid-way in the afternoon.

The High School Building Committee invites all citizens of the community to attend the affair, which will include a guided tour of the building and a formal program.

The tour will start just after two o'clock, from the gymnasium lobby door, which townspeople are asked to use when they enter the building.

At 3 p.m., a program will begin in the auditorium, featuring Dr. Franklin P. Hawkes as guest speaker.

Cavanaugh Art At Abbot's Gallery

Opening Nov. 6 at the John-Esther Art Gallery of Abbot Academy will be an exhibition of paintings by Tom Cavanaugh, a talented young artist who has just returned from a year's independent study in Italy on a Fulbright fellowship.

A total of 17 large oil paintings and drawings will be shown and the predominant style characteristic of Mr. Cavanaugh's work can be called "expressionism". There are also many paintings which embody elements of the abstract, but there are always seen in each painting a subject matter and definite natural form. The retreat from likeness is evident, but the artist has imaginatively kept the original spirit and mood of the scene. The painting themes range from lively brilliant oils and encaustics of the Italian scene - the Roman market and other Italian landmarks - to earlier oils done in Mr. Cavanaugh's favorite theme of the ocean and its surroundings, in particular, the coast of Maine. A native of Illinois, Mr. Cavanaugh studied at the University of

Illinois, graduating with honors in the fields of painting and art history. He has taught at the Kansas City Art Institute, Washington University of St. Louis, and presently is an Assistant Professor of Painting at Louisiana State University, one of the advancing institutions in the field of contemporary art teaching and technology.

One of Mr. Cavanaugh's unique accomplishments lies in the fact that he initiated the Bay Street Studio of Boothbay Harbor, Me., a residence, not a school, where artists can work independently during the summer months. He is owner and director of this studio and it has been very successful in attracting some of the better painters to its doors.

Also, in addition to receiving a coveted Fulbright award for study in Italy, he received in 1950 the McClellan Fellowship for study in France, Holland, Belgium, Germany, Italy and Switzerland, from the University of Illinois. His work is represented in the permanent collections of the following museums: The Nelson Gallery of Art, Kansas City, the Joslyn Museum of Art, Omaha, the Mulvane Art Center, Topeka, and Kansas State College.

Among the 56 regional and national shows, in which he has exhibited some important paintings, are: the Metropolitan Museum of Art's exhibition, in 1950, entitled "American Painting Today"; and the Whitney Annual of "Contem-

porary American Painting". He has been, locally, a frequent exhibitor in the Boston Arts Festival and in his student days his work was represented in an exhibition of student art at the Addison Gallery of Andover.

The John-Esther Gallery is proud to be one of the few galleries to exhibit Mr. Cavanaugh's recent work of Italy, since his work has been shown only at the Portland, Me., Museum of Art during September.

The exhibition is open to the public Monday through Friday and will continue to be on view through Nov. 28.

Many parents attended the special ceremony.

Need For Housing Is Poll Subject

To determine whether or not need for housing for the elderly definitely exists in the town, the Andover Housing Authority, at its October meeting decided to poll the aged by means of a prepared questionnaire.

These forms will be available at the following places throughout the town: Town Clerk's office, Welfare Agent's office, Veteran's office, Memorial Hall Library, Ballardvale Library, Shawsheen Postoffice and Merrimack Mutual Insurance office in Shawsheen. In addition, all members of the Authority can be contacted for these forms. Authority members are George Noury, chairman; Roy A. Russell, vice chairman; Thomas R. Wallace, treasurer; Thomas Eldred, Assistant Treasurer; Edward Johnston, state member and Ernest N. Hall, executive director.

Questionnaires should be returned to the Andover Housing Authority, 100 Morton st. no later than Friday, Dec. 6.

Lease Infirmary To Mrs. Fanning

The Andover Board of Selectmen has leased the Town Infirmary on a trial basis to Mrs. Robert Fanning, matron, for \$1 for the next three months.

The action was taken with the approval of the Finance Committee and in accordance with the vote of town meeting. Mrs. Fanning has been matron at the Infirmary since last June and as such has been paid a salary by the town. Under the new arrangement, Mrs. Fanning will assume the utility charges such as fuel, electricity and telephone. The town will take care of the insurance and general repairs for the balance of the year, but Mrs. Fanning has been asked to carry liability insurance.

There are now 11 persons at the Infirmary and a 12th is expected shortly. Some are private patients and others are assisted by the town. Mrs. Fanning has a state license.

The Selectmen estimated that if the program works out as they hope it will along these lines, a saving of at least \$10,000 a year will be effected.

Land Taking

Payment for Haggett's Pond land, taken months ago by the BPW is being considered by the Selectmen. Owners have been asked to set their prices; two appraisals have been finished and now the Selectmen are trying to arrive at a fair price to offer the owners, considering these factors and the assessed value of the property.

widening and filling. Highway Supt. Stanley Chlebowski said fill will be dumped there from the Shawshen rd. construction, but town equipment will be moved and the men will go on other jobs. To be completed are resurfacing projects on Greenwood rd., Haverhill st., Prospect Hill rd. and Woods rd.

May Enter System

Mrs. Raymond Hoyer on Wildwood rd. will be allowed to enter the new water main being installed by Developer Roy Farr, by installing a copper pipe on her own property and having necessary gate valve and other equipment installed in the street - all at her own expense. She reported to the BPW that her well has run dry and the house is without water.

Hussey's Pond

Legal restrictions on draining Hussey's Pond are being considered by the BPW. Secretary Alex Henderson said the state is involved wherever there are fish and that there is a time limit on how long the pond may be drained. Deeds are to be looked up by the BPW, seeking to learn of any other restrictions on the pond or land adjacent to it.

Will Use Gravel

The BPW has decided to push in a ridge, at the Essex Sand and Gravel Co., pit in Ballardvale, to fill a low area near the new well. The company is being allowed to operate on the property that the town took around the well area. Good oak lumber, from trees being felled to make a roadway into the well site, will be sawed into 12-14-foot lengths by the BPW and stored at the town garage for future use.

Old-Fashioned Insulation

Water Supt. Donald Bassett and crew have been covering the Abbot test well plumbing with leaves to prevent freezing.

Taxpayers Named Haller President

Harold Haller, a vice president of the Taxpayers Association, was elected president at the annual meeting. He succeeds Henry Wolfson, who held the job for two years.

Other officers elected at the meeting were Phillips B. Marsden, vice president; Robert Mayo, treasurer and Allyn Sears, secretary.

Members of the board of directors for one year are C. J. Pope, Mr. Mayo, Paul S. McKinnon, J. Mosher, Dino Valz, Mr. Haller and Mr. Wolfson.

Elected for two-year terms were Vincent Treanor, Ronald M. Valentine, Mr. Sears, Kenneth Fulton, Wendell Hopkins, Donald Burns and George Luedke.

Named for three-year terms were Thayer Warshaw, Mr. Marsden, Arthur Solomon, Kenneth Bevan, Archibald D. MacLaren, Milton Meyers and Stanley Chmielecki.

Associate directors named were Joseph McCarthy, Walter Tomlinson, Walter Haselton, Stanley Swanton, J. F. Manning and Louis Gleason.

SEEK MONEY FOR 2 MORE WELLS

(Continued from Page One)

In addition to the two wells being tied into the system. This one has been partially tested, it is recalled, and will be examined thoroughly next spring.

The money, about \$500, will be transferred, it is believed, from the special article on water improvements voted at the special town meeting. This requires approval from the Finance Committee and Selectmen.

Meanwhile, work is continuing satisfactorily on the vast water main installation project on Porter rd. The DiMartino Construction Co. has one crew working and anticipates the second crew will be here, with its equipment, late this week. Both will work on the Porter rd. job, laying 16-inch main from the test well site in the Vale to So. Main st.

Water Supt. Donald Bassett explained it will be possible to install 7-800 feet of main a day with two crews working, thus speeding up the job.

When the 6000-plus feet of pipe have been installed, the main at the Abbot well will be installed.

Last on the list of jobs is the water main that runs across country in the Vale. This work can be done in cold weather, engineers have explained, so it is left until last in case an early freeze jeopardizes the entire project. It is hoped to have the mains in and the wells connected by mid-winter.

At the Abbot well site, it finally has been decided to put down the permanent well about 15 feet from the test well. This will allow continuous pumping from the temporary well, without much shut down for connecting purposes. Some 350,000 gallons of water daily are pumped into the system from the present well and the BPW decided not to shut it down for two or three months - a move that would be necessary if the permanent well went in at the exact location.

The Ballard Vale United Church Guild met last Thursday evening, Oct. 24, in the vestry. In the absence of the president, Mrs. Albert Warner, the vice president, Mrs. James Letters, presided.

Mrs. Richard Sherry had charge of the devotional service. Plans were made to hold a coffee hour Tuesday morning, Nov. 12, in the vestry. The committee includes

Mrs. Robert Demers, chairman; Mrs. Harry Batchelder, Mrs. Albert Warner and Mrs. Randolph Perry. It was reported that a meeting of the Andover District Massachusetts Fellowship of the Congregational Church Women will be held Nov. 7 in the No. Chelmsford Congregational Church. Members were asked for broken toys, as the Youth Fellowship group members are re-

pairing them. They will be on sale at the church fair.

Mrs. Stephen Parsons and Mrs. Andrews of the Andover League of Women Voters gave a talk and showed a film on what the United Nations is doing in Korea. A discussion on the U. N. program followed.

Refreshments were served by Mrs. William Maruzzi and Mrs. Richard Sherry from a Halloween decorated table.

Present were Mrs. William McIntyre, Mrs. Alfred Webb, Mrs. James Letters, Mrs. Curtis Scholtz, Mrs. William Batchelder, Mrs. Robert Mears, Mrs. Richard Sherry,

Mrs. Henry Meyers, Mrs. John Wilson, Mrs. Ernest Edwards, Mrs. Robert Demers, Mrs. J. Elwyn Russell, Mrs. Ralph Rosenblad, Mrs. George Davison, Mrs. Ernest Hall and Mrs. William Maruzzi.

A remarkable advance in life insurance...

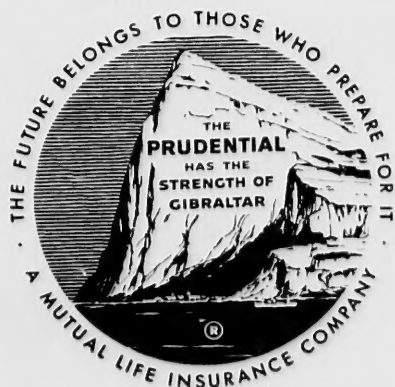

one policy provides life insurance for your whole family and automatically includes every new arrival at age 15 days—at no increase in premium.

Prudential's Family Policy is family life insurance in the truest sense. The policy provides permanent whole life insurance for Dad, for he's the breadwinner. But more than that, it also provides term insurance for Mother and the

children. And it extends coverage to every new arrival after 15 days—at no increase in premium. What's more, if Dad dies before age 65, premiums are waived on the term insurance on Mother and the children.

Isn't this the kind of family protection you would like to have? Get all the facts by sending in the coupon today.

CHRISTMAS SEALS ARE READY — The Andover Christmas Seal Committee spent the day recently in the Essex County Health Association office in Beverly preparing Christmas Seal letters for nearly 5000 Andover residents. The Sale starts in November. Left to right, they are Mrs. Leonard F. Colpitts, Mrs. William R. Wholey, chairman; Mrs. William A. Trow, Miss Louise Kelsey and Mrs. Ernest Fieldhouse. Mrs. Thaxton Eaton, Mrs. Elizabeth Kimball and Miss Helen Eaton also helped get the letters ready, but were not present when the picture was taken.

Speaker, Dr. Franklin P. Hawkes, director of Division of University Extension, Department of Education; Subject, "Our 1957 Educational Platform";

Benediction, Very Rev. Henry B. Smith, O.S.A., pastor of St. Augustine's Church.

Officially, the Open House and Program are scheduled for 2-4:30 p.m. allowing plenty of time for interested residents to inspect the new building. This will be the first time the public has had an opportunity to go through the High School since it opened at the beginning of the school year.

The program had once been postponed by the School Building Committee because of construction in Shawsheen rd.

**HALLOWEEN PARTIES
ON TAP TONIGHT**

(Continued from Page One)

An entertainment — a dog act, juggling, rope tricks and comedy — will be followed by all sorts of tempting treats in the school cafeteria. There will be soft drinks, candy, lollipops, ice cream and cookies for the young folks.

And one of the features of the evening will be a gold fish bowl filled with shiny pennies. Pre-school age youngsters are invited to step up and take a handful — as much as their little hand will hold.

In the other two sections where parties are being held, similar

bowls will be set up for the pre-school children. Entertainment will be featured there, as well.

Later in the evening, the Junior and Senior High School students will have their fling, with a dance scheduled for the auditorium. A disc jockey of their own choice will furnish the music and there will be refreshments available in the cafeteria.

Some notion of the work that goes into the annual parties, sponsored by the Recreation Committee, can be obtained from the list of items purchased for the affairs: 1250 lollipops, 1250 hoodies, cookies for 1750 young people, 1750 bottles of Coke; 24 dozen doughnuts, seven gallons of cider and 2000 straws. Five thousand new pennies, bright and shiny, also are furnished.

Mr. and Mrs. Joseph Wenzell and their family, formerly of Detroit, Mich. are now living in the Himmer house on Virginia rd.

Report On Visual Aids To School Committee Dec. 3

Last spring, the Educational Television Committee, which had been appointed by the School Committee, reported that an all-inclusive closed circuit television facility was not practical for Andover at the present time.

It was recommended, however,

that a committee be appointed to study and make recommendations for the development of an audio-visual educational program within the schools of Andover. At the request of the school committee, Arthur Danforth, general chairman, appointed the following committee:

William Charlton, chairman; Paul McKinnon; Robert Bachman; Arthur Danforth; Gordon Bensley; Mrs. Jane Grant and Miss Miriam Putnam.

This committee met Oct. 24 to organize the problem and define the areas for investigation. A report will be submitted to the school committee Dec. 3.

Town Began Woodland Road Water Main Construction

The Board of Public Works started installing some 2000 feet of 12-inch water main on Woodland rd. this week.

The job, which may be completed this year, will cost an estimated \$34,600, according to Water Department Supt. Donald Bassett.

He said much of the excavation will be through ledge, slowing down the project for necessary drilling and blasting.

The new main will replace a six-inch main in that street, Bassett continued, and is part of the over-all water improvement program designed to give better service to the north east section of town.

Bassett couldn't tell whether his crews could finish the job before bad weather, however, because other installations may interfere.

A "tricky" tie-in at the Haggitt's Pond pumping station must be completed this fall, serving

the new reservoir at Wood Hill. When the pipe and materials for that job arrive, Bassett said, the Woodland rd. project must be temporarily halted. The installation at the pumping station must be completed, it was explained, so that the reservoir can be put in use.

The section of Andover to be served by the new line on Woodland rd. is one that has caused considerable comment during past years. At least one development was discouraged in the area because there presently is not enough water.

While the new main won't solve the entire problem, it is part of the engineering consultant's recommendations to alleviate part of the shortage.

NAMED CHAIRMAN

Joseph E. Horan has been named chairman of Selective Service Board 62, with offices in the Postoffice. Thomas Cargill of Boxford is secretary.

Hail Radar Eye On Hawk Missile

A radar "eye" that ignores sta-
tionary objects but speeds a sur-
face-to-air missile instantly to-
ward a threatening moving aerial
target was revealed today by the
Army when it made public new
details of the Army Hawk air
defense missile system, key de-

lender of American cities against
serial invaders flying at even the
lowest altitude. The missile is
being produced by Raytheon Manu-
facturing Co. in Shawsheen.

The Hawk's outstanding ability
to seek out and destroy invaders
even at tree top level, the Army
said, is due to use of a radically
advanced radar technique in the
missile's guidance system.

Another unique aspect of the
Hawk system is the extreme mobility
of the ground support equip-
ment which permits Hawk batteries
to travel with fast-moving assault
forces of the Army and Marine
Corps.

The Hawk weapon system was
displayed publicly for the first
time Monday, Oct. 26, at a com-
bined exhibit of Raytheon Manu-
facturing Company, prime contrac-
tor, and Northrop Aircraft, Inc.,
principal sub-contractor, at the
annual meeting of the Association
of the U. S. Army in Washington.
Raytheon has complete weapon
system responsibility for the Hawk
program. Northrop is the major
sub-contractor for missile airframe
components and system support
equipment such as the mobile
launcher and launcher.

The Hawk's unique radar sys-

tem, the Army said, makes it
possible for the first time for a
missile to pick out the reflection
from a moving target at low alti-
tude from a mass of signals re-
flected from ground objects such
as hills, buildings and tree tops.
Hawk is the first missile in mobile
field use to employ these ad-
vanced radars successfully and as
a result the first with superior low
altitude capability.

Raytheon Folks Enjoyed Dance

Employees of Raytheon in And-
over young and old alike, flocked
to the Crystal Ballroom in Shaw-
sheen Village Friday night to
attend the First Annual Harvest
Dance of the Employee Activities
Association. Plans are now under-
way for a Christmas party and
dance to be held in December.
A drive is underway to have

Will Spin Gold Out Of Straw

Rumpelstiltskin, "The little man" who could spin gold out of straw, according to Grimms' timeless fairy tale, will be plying his art on an antique spinning wheel when the Children's Theatre Workshop presents its three performances this month.

The spinning wheel belongs to Mrs. Samuel Rogers, general chairman of the Workshop, who also is loaning her antique cradle for the Queen's child — two integral "props" for a play which is to mark the opening of a very worthwhile little theatre project for Andover.

Two performances of "Rumpelstiltskin" are being scheduled for the Central auditorium Friday, Nov. 15 at 8 p.m. and Saturday, Nov. 16 at 3 p.m. In addition to these, arrangements have been made to present a special matinee performance in the auditorium of the No. Andover High School for Wednesday, Nov. 20 at 3:30 p.m.

All standing committee chairmen are hard at work and many children have joined the ranks as very able assistants. Three rehearsals are held weekly by the play director, Mrs. William Edwards — and the music, which is in charge of Mrs. Betty Cole, is reportedly "shaping up very nicely". Mrs. Cole has had considerable experience with children at the piano and is known to have a knack of bringing out the song in them.

High praise for Mrs. Edwards' directing has also been voiced by all who have seen her in action. Perfect discipline is maintained and the children in the cast go to work promptly with obvious pleasure and are dismissed for home as soon as their parts are satisfactorily performed.

All scenery, under the direction of Mrs. Anthony Puma, is now in the process of construction at Jackson School and Mrs. Puma reports that the first act scenery is entirely finished. Here children have shown exceptional interest and ingenuity and several, outstanding talent. They have made a rock wall out of rough cardboard, some very clever stuffed birds and are now endeavoring to paint white a real "Christmas" tree. Those assisting are Darlene and Donna Bennett, Carol Jones, Denise Puma, Elizabeth Garrison and Diane Cole.

Props Pour In!

An exciting variety of properties of all descriptions have been pouring into Mrs. Rogers' ample barn on Salem st., almost all very usable "give-aways" for use of the Workshop. Dance costumes, hats, shawls, lace, cartons, make-up, materials of all kinds and even an old Saratoga trunk have been received by Mrs. Rogers.

Mrs. Albert Roehrig is chairman of the Costumes Committee and with the help of able assistants and the generosity of Mrs. Harford Powell, who has provided a room in the basement of her home for costumes, a good deal of sorting has been going on. Velvets, satins and laces have been boxed and placed on shelves, and dresses of all descriptions are being examined and placed on racks. Her committee includes Mrs. Milton Meyers, Mrs. William Clift, Mrs. William Bennett, Mrs. Peter McKee, Mrs. Winthrop Newcomb and Abigail Allis, the young seventh-grade daughter of School Committee member Frederick S. Allis Jr. and Mrs. Allis. Abigail has shown a great interest in Theatre Workshop and is making the important King's costume all by herself.

"Tomorrow I Brew My Beer"

"Today I bake; tomorrow I brew my beer; the next day I will bring the Queen's child here". . . these singing lines of the ridiculous little man called "Rumpelstiltskin" (played by Dudley Whitney) will be done from a handsome copper cauldron on three legs, which has been loaned the Workshop by Mrs. Virgil Marson. The musical arrangement is being done by Mrs. Cole and Mrs. Edwards and promises to be one of the most charming episodes of the entire play. Another sequence which will be done as realistically as possible (rehearsals attest to this) will be a dueling match with sabers made by the boys who will be taking part. They are Peter Bradford, "Chippy" Wilson and Gary Chadwick, who, through arrangements made by Mrs. Waters Kellogg, have been given one dueling lesson by Abbott Academy's fencing teacher, Mrs. Judd. Others helping with the making of swords, crowns, etc., are Marietta Amy, Lynne Anderson and "Jettie" Clotworthy.

Mrs. William T. Rich 3rd, chairman of the Make-Up Committee, with the assistance of Mrs. Norman Barnes and a seven-girl corps of cosmetic enthusiasts, meet whenever possible to practice their art. The girls include Ethel MacAdam, Kathy Pickering, "Jettie" Clotworthy, Donna Bennett, Cynthia Bennett, Ellie Waterston and Janet Clift.

The electrical lighting crew in-

cludes Joseph McManey, Peter Worthen, Philip Hollis, Tony Powell, Peter Saunders, George Killorin and Douglas Edwards.

Hail Radar Eye On Hawk Missile

A radar "eye" that ignores stationary objects but speeds a surface-to-air missile instantly toward a threatening moving aerial target was revealed today by the Army when it made public new details of the Army Hawk air defense missile system, key de-

fender of American cities against aerial invaders flying at even the lowest altitude. The missile is being produced by Raytheon Manufacturing Co. in Shawshen.

The Hawk's outstanding ability to seek out and destroy invaders even at tree top level, the Army said, is due to use of a radically advanced radar technique in the missile's guidance system.

Another unique aspect of the Hawk system is the extreme mobility of the ground support equipment which permits Hawk batteries to travel with fast-moving assault forces of the Army and Marine Corps.

The Hawk weapon system was displayed publicly for the first time Monday, Oct. 28, at a combined exhibit of Raytheon Manufacturing Company, prime contractor, and Northrop Aircraft, Inc., principal sub-contractor, at the annual meeting of the Association of the U. S. Army in Washington. Raytheon has complete weapon system responsibility for the Hawk program. Northrop is the major sub-contractor for missile airframe components and system support equipment such as the mobile loader and launcher.

The Hawk's unique radar sys-

tem, the Army said, makes it possible for the first time for a missile to pick out the reflection from a moving target at low altitude from a mass of signals reflected from ground objects such as hills, buildings and tree tops. Hawk is the first missile in mobile field use to employ these advanced radars successfully and as a result the first with superior low altitude capability.

Raytheon Folks Enjoyed Dance

Employees of Raytheon in Andover, young and old alike, flocked to the Crystal Ballroom in Shawshen Village Friday night to attend the First Annual Harvest Dance of the Employee Activities Association. Plans are now underway for a Christmas party and dance to be held in December.

A drive is underway to have every employee of the Andover Plant join the Activities Association.

Decision Made Sense

The School Department acted wisely, in our judgment in refusing to close schools last week.

It made considerable sense to keep the schools open, realizing that movies and other places where youngsters congregate, were also open. For it is logical to assume that many children, feeling fine and out of school, would have gathered together in these places.

And in doing so, they would have been defeating the purpose of closing schools — removing the youngsters from sources of infection. It is when children, or for that matter adults, get together in enclosed areas that contagious diseases have their best opportunity to spread and that could have been a logical reason for closing schools, if everything else had closed down too.

As we understand it, there was considerable pressure from some quarters to close the schools. It's good to know that the superintendent, health authorities and the school committee kept their feet on the ground rather than being swept away by the pressures.

Hunters Should Take Care

Shooting around homes during this hunting season has been less prevalent than in some other years — but to the residents who have reported shooting in their back yards, this is of little consequence.

For it is dangerous to have even one hunter fire his gun near enough to any home to possibly cause damage to persons or property. Folks living in the country have complained because hunters are firing within the 500-foot limit set by law — a clear infraction of the law but one hard to prevent. These folks are angry, because whenever a hunter shoots at a bird, he also menaces youngsters playing in the yards.

We certainly can understand their concern. And we also recognize that most hunters are exceptionally careful to stay outside that 500-foot area. But a few, sometimes from out of town, have little consideration for the law when they see a pheasant. Sometimes, to be sure, they may not even know a house is nearby, being strangers to the area. This is not an excuse, though, because any hunter should familiarize himself with any area where he is going to shoot.

This problem of hunting too close to homes is a hard one to solve, because it is very difficult for the police to take much action. They investigate any complaints — but usually the hunter has left the area before police can be notified and get to the scene. And it is obviously impossible to patrol the town sufficiently to catch the hunters in the act.

Thus we have to actually depend on the hunters themselves and their organizations. The few hunters who are breaking the law should be penalized — perhaps by the organizations. The alternative to self-policing is a general town ordinance forbidding hunting anywhere in the town. This might not be the most desirable answer but it is sure to come if the hunters don't solve this problem themselves.

Going to school at home — that is the situation that exists at North st. in West Andover for Geraldine "Jill" Clark.

Jill is a 15-year old Miss who would ordinarily be attending classes as a member of the Sophomore Class at Andover High School. Last summer she underwent a series of operations and presently is in a cast and confined to her bed. It will be at least another three months before Jill will be able to get up and out. Meanwhile, the Executone School-to-Home Telephone System has brought High School to Jill. A direct telephone line makes two-way communication possible between her home and two regular classrooms at Andover High School. Amplifiers have been set up in the Biology lab room and one other regular classroom. Mr. Hopkins, Jill's Biology instructor; Miss Smith, her French instructor; Miss Carlson, her English teacher and Mr. Collier, instructor in Algebra have all cooperated by moving one of their regular Sophomore classes into one of these rooms.

Jill is very grateful for having this opportunity to keep up in all of these subjects. She does her assignments regularly and can check her accuracy each day when her teachers go over the lesson in class. Jill says that usually she can understand new work just by hearing it explained. Occasionally, Jill calls on one of her close friends for a little further explanation after school.

It will certainly be wonderful when Jill is finally able to return to school, but, until that time comes, this effective technique is enabling her to have daily contact with her teachers.

All the students at Andover High wish Jill a speedy recovery.

Just my luck to come by two beautiful young pheasants for a nice Sunday meal and no one in the family giving a hoot! My marketing lists, like to many others I know, consist mainly of fruit juices, ginger-ale and Kleenex.

But the birds hang high and as chicken is one of the prescribed foods for the get-wellers, a tender slice of pheasant meat might not go amiss.

According to the tips I get from the State Agricultural Marketing Division, chickens and turkeys are in for more shots in the arm — or rather leg. From where I roll my market cart it would appear that all poultry is about as fine as it can get. Apparently, though, there are no limits to nutritional goals. A newly constructed poultry house is now being equipped at the Agricultural Research Center in Beltsville, Md., and will be devoted solely to research on the breeding of turkeys. And with the recent enactment of the "Poultry Products Inspection Act" all poultry and poultry products moving in interstate or foreign commerce and in major consuming centers must be inspected for wholesomeness.

So Sputnik or no Sputnik, we Americans do no stargazing in the noble areas of fine food production, that's for sure.

APPLE CIDER CAKE

Presuming you over-bought for trick-or-treaters and tomorrow find yourself with a large supply of cider that could blow its top before the weekend's out, here's a pleasant way to measure off a little bit of it, anyway:

- 2½ cups sifted cake flour
- 2 tsp. baking powder
- ¼ tsp. soda
- 1 tsp. salt
- 1 tsp. cinnamon
- 1½ cups sugar
- ¾ cup shortening
- ¾ cup apple cider
- 3 eggs, unbeaten

This is a recipe I clipped from the Woman's Day magazine several autumns ago, and because I love the flavor of apples I knew I'd like this. It's made in two layers in 9-inch tins and crab apple jelly is spread between both after they're all baked and cooled. Then a topping of 7-minute frosting, tinted yellow.

Measure into sifter the flour and other dry ingredients. After placing shortening in mixing bowl and stirring to soften, add the dry ingredients, then the cider until all flour is dampened. Beat 2 min. at low speed; add eggs and beat

a bit more. Pour into the pans and bake in a 375 degree oven 20 to 25 min.

FROST IS ON THE PUNKIN'

And I still can't make what I call a good pumpkin pie! One of the best pie bakers I know is Mrs. Wallace Rennie on Argilla rd., and as the Rennies grow a nice crop of pumpkins and squash in their gardens, I figured a recipe from her would be well worth trying.

SPICY PUMPKIN PIE (Mrs. Wallace Rennie)

- 1½ cup mashed cooked pumpkin
- ½ tsp. salt
- 1½ cup milk
- 2 large eggs or 4 egg yolks
- 2/3 cup brown sugar
- 2 Tbl. white sugar
- 1¼ tsp. cinnamon
- ½ tsp. ginger
- ½ tsp. nutmeg
- ¼ tsp. cloves

Place all ingredients in a mixing bowl, beat slowly until all is well mixed. Pour into a 9-inch pastry-lined pie plate and bake 45 to 55 minutes in a 425 degree oven. Do not reduce heat. Be careful not to overbake, Mrs. Rennie warns, for whey will result. The center should look slightly shaky.

QUICK PINEAPPLE PIE (Also Mrs. Rennie)

- 1 No. 2 can crushed pineapple
- 1 cup sugar
- 2 Tbl. flour
- Pinch of salt
- Juice of ½ lemon
- 1 Tbl. melted butter
- 2 eggs.

This is for a 9-inch family size pie, also, but baked with 2 crusts. Beat eggs, add the sugar into which has been stirred the flour, then add the other ingredients. Mix, pour into pastry line tin, add the top pastry and bake in a 400 degree oven for 45 min.

TUNA-NOODLE CASSEROLE (Party size!)

A sensational success — this recipe — and will serve at least 18, so do keep it handy for club or church covered-dish offerings or a buffet party. It is not a "steal" — it is mine and I have used it many times.

- 20 ounces canned tuna (water pack)
- 1 12-ounce box wide egg noodles
- 2 can condensed cream of mushroom soup
- 2 cans milk
- ¾ cup finely cut celery

- 1 large onion, chopped
- 2 Tbl. chopped green pepper
- Chopped parsley
- Salt, pepper, oregano
- 1/8 lb. butter
- Parmesan cheese
- Lemon juice
- Pepperidge Farm Stuffing crumbs

Finely flake the tuna with fingers and sprinkle with fresh lemon juice. Set aside while you saute in 1/8 lb. of butter to which has been added a bit of water, the celery, onion, pepper and parsley. Cover and simmer for about 10 min. Pour over the tuna. Heat the condensed soup to which has been added equal amount of milk and add to tuna. Now boil carefully the noodles in a large amount of salted water for not longer than 5 min. Drain. Butter a large casserole and layer into it the tuna mixture and noodles, ending with the tuna mixture on top. Season as you do this, being careful not to overdo the oregano. A hint of oregano is all you need, but this small amount is definitely important. Crush finely the Pepperidge Farm stuffing crumbs, top with Parmesan and paprika and melted butter. Bake in moderately hot oven (400 degrees) for 45 min. or until brown and bubbly.

WANT MORE DINE-ERGY?

Just a reminder that cauliflower, now very much in season, is richly endowed with vitamins A, B, and C, and if not overcooked, is a delicious vegetable choice to go with the main dish. It's fatal to cook it beyond the just-tender

stage, as you know. Served with sweet butter melting down through the flowerets, a sprinkling of grated cheese and chopped, fresh parsley there's nothing more delicious! (I do hope the chef responsible for the white-sauced, over-cooked and probably warmed-over cauliflower I was served in a reputable restaurant last week will some day wise up).

At the request of Police Chief David Nicoll, High st. will be resurfaced with a coarser material.

In a letter to the BPW, Chief Nicoll suggested that High st. is now too smooth, at the intersection with Haverhill st. Two fatal accidents have happened there this year, he wrote.

Highway Supt. Stanley Chlebowski was directed to put a coarse stone and oil surface on the hill section.

Also considered was Chief Nicoll's request to have a 21,000 lumen light installed at York and Haverhill sts., where an officer stands to direct traffic coming from Raytheon Manufacturing Co. The Board agreed to have the Electric Co. send a representative to inspect the location and make recommendations on the amount of illumination necessary there.

Ask Selectmen To Explain Method Of Filling Vacancy

The Board of Public Works has taken the first step toward replacing the late P. LeRoy Wilson on the Board.

At its meeting Monday night, members voted to ask the Selectmen to officially explain the procedure for naming a fifth member.

This decision came later member David Thompson had moved that the Board officially request the Selectmen "to take the neces-

sary steps to see that a replacement is appointed to the board".

Member Francis Reilly seconded the motion, but then said he'd like to know more about how it's done and "if we are going to have any say in who is considered".

Chairman Allen Flye had told the Board that the BPW must officially request a replacement, then the Selectmen and four remaining Board members picked the

replacement. Some question arose as to whether the Selectmen merely furnished the BPW with a list of potential members, from which the BPW must choose one or whether both Boards could offer names of men who might serve.

Secretary Alex Henderson disagreed with his colleagues over the replacement. He stated "I'd prefer to see it go to election. Pressure can be brought to bear if some one has a preference who gets it".

Members Reilly and Thompson made the point that the voters expect five members on the Board

and that the fifth member could be a help during the months until the March election.

November Club To Hold 1st Meeting

The first meeting of the November Club, at its club house on Locke st., will take place on the afternoon of Nov. 4 when officers of the club, headed by Mrs. Edward I. Erickson, president, will welcome members at 2:15 at a dessert course and reception in honor of new members.

talking about a new schedule when it is with the possible partial adoption of the mended schedule. The Board of Education tentatively discussed and special articles talked in terms of improvement experience in equipment and additional equipment.

The Board set Nov. 6 aside for deliberations. While none of the suggestions were discussed by various officials in any way definite officials conceded in the BPW and these two departments could be most of all to offices.

It also appeared that the special experts said the increase will be just to keep the costs of materials that must be each year.

talking about a new basic salary schedule when it meets Nov. 5 — with the possibility that even partial adoption of the recommended schedule will sharply increase that department's budget.

The Board of Public Works, tentatively discussing budgets and special articles Monday night, talked in terms of heavy water improvement expenditures; replacing equipment and buying additional equipment for the town garage; asking additional funds for drainage and sewer projects; and seeking more highway money to straighten out many bad curves and blind spots.

The Board set the evening of Nov. 6 aside to begin serious deliberations.

While none of the items discussed by various boards were in any way definite, most town officials concede that increases in the BPW and School Departments could be considerable. These two departments spend the most of all town boards and offices.

It also appeared likely, financial experts said, that a general increase will be noted in all budgets, just to keep pace with increasing costs in supplies and materials that must be purchased each year.

Whether pay increases will enter the picture appears to depend

mostly on the results of the wage and job analysis now underway. Recommendations of the independent firm conducting this analysis probably will be available in December.

Available Funds

When the 1957 town meeting was over in March, voters found they had followed the FinCom recommendations strictly — adding \$4.47 to the tax rate and appropriating over \$350,000 from available funds, which was not reflected in the rate.

While the financial watchdogs will go over this year's budget estimates and special articles carefully, no town official actually anticipates that it will be possible to again take so much money from available funds. Thus appropriations substantially greater than last year, if approved by the FinCom and voters, may be reflected by generous increases in tax bills.

Tax Rate

However, the tax rate in 1958 almost certainly will be much less than the \$64 rate this year.

For it is expected that the revaluation of all real estate will be completed in February, giving the assessors a chance to use the new figures in computing the 1958 rate.

John Brann, who heads the project here for Cole-Layer and Trumble, explained, at the Taxpayers Association annual meeting, that every property owner will have had a chance to examine new valuations and question them prior to the annual town meeting. He suggested the work will be finished early in February.

And about that time, or at least by town meeting time, the assessors will have had to decide what percentage of 100 percent value to use in determining assessments. The possibility remains that 100 percent valuation will be used, as urged recently by a state tax department official.

While it is probable that the tax rate next year will have dropped — officials are quick to point out that the tax bill is the important item and that it will increase in relation to appropriations at town meeting.

Obituary...

MRS. AGNES A. EYRE

Funeral services for Mrs. Agnes A. (Locke) Eyre, 88, a resident here for five years, were held Oct. 25 at the Lundgren Funeral Home. The Rev. John S. Moses, rector of Christ Episcopal Church, officiated and burial was in Spring Grove Cemetery.

Mrs. Eyre died Oct. 23 in the Mount Vernon Nursing Home, following a long illness. She was a native of Halifax, Nova Scotia. Surviving are several nieces and nephews.

Bearers were Benjamin, Leo, Joseph, John and Arthur Locke, all nephews of the deceased.

BAND GIRLS TAKE CANDY ORDERS

(Continued from Page One)

Serving on the Candy Committee are Mrs. Walter Vogt, chairman; Mrs. Norman Auchterlonie, Mrs. Donald Bassett, Mrs. James Byrnes, Mrs. William Flaherty, Mrs. George Forsythe, Mrs. Robert Grange, Mrs. Walter Reynolds, Mrs. Frank Santuccio, Mrs. Paul Simeone and Mrs. Harold Freeman. Mrs. Freeman and Mrs. Simeone will have charge of the bakery sale later this fall.

It was agreed that band mothers should accompany the band when it goes out of town, as assistance for Miss Joyce Mowat, director of the band.

Mothers planning to attend a Nov. 23 engagement in Boston are Mrs. Bassett, Mrs. Byrnes, Mrs. Forsythe, Mrs. Simeone, Mrs. Alvin Zink and Mrs. S. Sweet. The event, Boston University High School Day, will find 20-30 high school bands taking part in pre-game festivities, as B.U. meets the University of Connecticut.

The Hospitality Committee for the organization of band mothers has been appointed, including Mrs. Edgar Johanson, Mrs. Harold Parshley and Mrs. William Yeager. Mrs. Forsythe, Mrs. Sweet and Mrs. Zink will be the refreshment committee for the next meeting Nov. 5 in Goldsmith Library.

PHILLIPS ANNOUNCES NEW PROGRAM

(Continued from Page One)

to be supplied by the Academy's Admission Office. Day student candidates must, therefore, make application to the Academy before the end of November. Appointments may be made by phoning Andover 720.

Admission is granted each year to a limited number of qualified day students from the Greater Lawrence area. Selection is competitive and is based on character, personality, breadth of interest, academic achievement and promise as measured by the candidate's academic and general record. In addition, the required personal interview and the results of the Secondary School Admission Tests are important. Scholarships, based on need, are available for successful candidates.

All inquiries should be addressed to the Admissions Office at Phillips Academy.

Why No Water From Shawsheen?

Why can't the town take water from the Shawsheen River?

That question seems to have puzzled a lot of people, according to BPW Chairman Allen Flye.

For he has asked to have consulting engineers Camp, Dresser and McKee report the answer in its over-all water source report.

That document is due any day. Questions of how much demand there is on the river from industrial plants; what rights are owned by industry and what legal red tape would need unsnarling were posed by the BPW chairman. He also noted that the problem of filtration should be met, when considering this source of water and he hoped the engineers would come up with a comprehensive answer.

"Lots of intelligent people have been questioning the possibility", he told the Board, "and I'd like to know the answers too".

Member David Thompson commented that the river looked right now as though it wouldn't give a million gallons a day and, at that, it would have to be filtered. It was also pointed out that one firm in Lowell Junction uses four to five million gallons daily, but puts the water right back into the river again.

It is recalled that the filter beds at the Shawsheen Mills were suggested as a possible answer to the town's problem during the special town meeting. At that time, Joseph Lawler, representing the engineers, said the bed is not designed for municipal use.

Board members also recalled that he had told them there would be insufficient water in the Shawsheen River for the town's use.

But all members, despite those recollections, were willing to have the firm further investigate the possibility and report so that everyone would be satisfied on the point.

Youngsters Held Halloween Party

Last Thursday Oct. 24 Sherry and Glenn Mitterman entertained a group of their friends at their home on Beech cir., in honor of Halloween. The game room was decorated for the occasion and games pertaining to the occasion with spooks, etc., were enjoyed by the following children: Debra Marum, John and Helen Gaunt, Joyce and Neil Novak, Michele Rohmer, Lynda and Russell MacLeish, Kay Stevenson, Fred Sunderland, Bruce Westaway and Laner Leadbitter.

Elected Officers

The Junior High Pilgrim Fellowship of the West Church elected the following to serve as officers for the coming year: Jack Gorrie, president; Renee Dubocq, vice president; Joan Bravacos, secretary; Bob Edgar, treasurer; Amy Thompson, workshop; David Lermond and Lynn Moriarty, social and Michael Wagenbach, refreshments.

Hi Fidelity Set At Youth Center

HIGH FIDELITY SET — At the Youth Center, they dance to music from the hi-fi set, donated by the Andona Society. The Society gave other useful materials and equipment to the Center last year from the proceeds of various activities. The annual Bazaar is scheduled for Saturday at Christ Church Parish House, with the money again slated for the Youth Center. Bob Wiss and Sandra Dulong are running the set for the Center's annual Halloween dance. (Arabian)

One of the most important benefit bazaars of the fall and winter season, for the ultimate benefit of all Andover youth, will be Andona Society's annual affair Saturday of this week at Christ Church Parish House.

Plans, stretching over a period of nearly a year, have been made under the ambitious chairmanship of Mrs. Donald Ward and Miss Dickie Thiras, who are being ably assisted by a large group of chairmen representing 15 separate activities.

The bazaar will open at ten o'clock in the morning and will continue until five p.m., during which time the sale of various gifts, toys and foods will be going on; a special film for children but of interest also to grown-ups (The Romance of Transportation) will be shown at half hour intervals; fortunes will be told by a "specialist" in costume; a delicious light lunch will be served from 11:30 until 1:30 and tea will be served in the afternoon from three 'till five.

Two handsome door prizes will be awarded and should provide considerable interest, particularly to all style-conscious women. And, of course, there will be lots of colorful balloons and "clowns" to please the very young.

The various tables and chairmen are as follows: knitting, Mrs. Harold Lermont; sewing, Mrs. Charles Gaunt and Mrs. Phillips Marsden; grabs, Mrs. John McKallagat; balloons, Mrs. Robert Macartney; chance and prizes, Mrs. Charles Black; pop corn, Miss Dickie Thiras; candy, Mrs. Eugene Bernardin; bakery, Mrs. Gordon Clement and Mrs. Reynolds Farrington; white elephant, Mrs. L. Gleyann Yeaton Jr. and Mrs. Willis Bryant; children, Mrs. John D. Hill; gifts, Mrs. Guy Howe Jr. and Mrs. Daniel Valpay; tea, Mrs. John

Woodworth and Mrs. Wallace Bolton; fortune teller, Mrs. Charles Black. Publicity chairmen are Mrs. John M. McCoy and Miss Thiras.

A variety of baked goods and candy are expected for sale. "White elephants" have been pouring in to the committee all week, too. Hand knits, particularly mittens and sweaters and baby sets, will feature this table and the committee in charge of the sewing table is more than pleased with the lovely variety of aprons, pot holders, baby bibs and odd linens that have already been received. Drawing special notice are some handsome corduroy bridge covers.

Andona Society, among its many aids to the Andover Youth Center, this year provided a Hi-fidelity recording set and records for use in the Youth Center dances. Funds for special instructors in handcraft, art and dancing have also been put at the disposal of the Center. To expand its benefits on a vast scale to meet with the demands of a growing Andover youth population, is the hope and expectation of the Society.

MORE YOUNGSTERS OUT FOR UNICEF FUNDS

Free Church young people in the fourth, fifth and sixth grades will seek funds today for UNICEF — the United Nations Children's Fund.

Other youngsters in the community are joining in the annual "trick or treat" activity, which finds the small fry asking for pennies for needy children rather than candy for themselves. In some churches, a collection is being taken up in Sunday School to benefit the fund.

Available Films

Films available in coming weeks: Nov. 1-30, Men Of Gloucester, 22 minutes; Nov. 4-9, Colonial Children, 10 minutes; Hansel and Gretel, 10 minutes and From So-

ciable Six To Noisy Nine, 23 minutes; Nov. 4-16, Art And Life In Italy, 10 minutes, color; same dates, History of Aviation, 20 minutes; three color films on Canada, here until Nov. 30; Northern Autumn, 10 minutes; Picture Province, 14 minutes and Wardens of Waterton, 12 minutes all three in color.

Movies For Young People

Each month there is a movie and story hour for the children of Andover and a similar program presented in the Ballardvale branch room for young people of that community. Ballardvale children will see their movies and hear their stories on Mondays, Andover's children on Tuesdays. On Nov. 4, at 4 o'clock, three interesting movies have been chosen to be shown in the branch library. They are "Colonial Children", "Hansel And Gretel" and "The History Of Aviation." This program will include stories

told by Miss Lane. The same films and stories will be repeated at Memorial Hall Library Tuesday, Nov. 5 at 3:35 o'clock. Parents are advised to plan for an hour when they intend to call for children. All young people are invited to movie and story hours.

Littlest Listener Meetings

The Cardinal group of Littlest Listeners will meet at the Memorial Hall Library Wednesday morning at 10 o'clock, Nov. 6. Mothers who have just learned about these groups are invited to bring three year olds to this group, which at present is the smaller. Already the pre-school members of Littlest Listener are beginning to learn to listen to stories, to take part in musical games and to act out their recordings.

Ballardvale Littlest Listeners will have their story hour this week on Thursday, Nov. 7, at 10 o'clock in the branch room. All programs begin promptly at 10 and end promptly at 10:45 a.m.

Massachusetts Librarians Meet In Andover

On Wednesday, Nov. 6, the first of four proposed meetings for Massachusetts librarians of this area has been scheduled to be held at the Memorial Hall Library. The meetings are for all day study, evaluation and selection of films to be purchased by participating librarians in the Massachusetts Film Cooperative pool. Through this combined pooling of funds, it is possible for member libraries to bring to their communities a full, year round program of films for use without charge in their towns and cities. The cost of this as an independent project would be prohibitive to small libraries.

Morning and afternoon sessions will be taken up with films in the field of art subjects, with some films in music and literature. Social issues, children's films, travel and history subjects are to be shown at future meetings.

The Memorial Hall Library was selected by this section as the meeting place. After each librarian has decided on which films she wishes to purchase and put into the pool, programs for the coming season are set up and distributed for booking.

The free loaning of films to groups in communities has become a very important feature of library service. Through this plan of sharing expense, each participant can give her community its share of audio-visual aids which are now considered essential to a well-rounded library program.

Party Celebrated 6th Birthday

Last Saturday afternoon Stephen Kayworth, son of Mr. and Mrs. Alfred Kayworth of Chandler cir., entertained a group of his little friends in honor of his sixth birthday which actually occurs on Nov. 1.

A hot dog cookout and games were enjoyed as well as birthday cake and ice cream. Halloween decorations added much to the festivities. Those present were Russell MacLeish, Neil Novak, Jeffrey MacLaren, James Pope, Wayne and David Thompson, George Wood, Gary and Linda Crotch, Jonathan Arold and Sharon Coppeta.

PLEDGED TO FRAT AT DARTMOUTH

Frank J. Killilea Jr., 139 Hidden rd., recently became a pledge of Phi Kappa Psi fraternity at Dartmouth College.

Son of Mrs. Isabel V. Killilea, he is a graduate of Phillips Academy. Presently a sophomore, Killilea plans to follow a business-engineering course of study. During his freshman year he was a member of the Pea Green crew squad and the Newman Club.

Student Council Will Conduct Panel At Lexington Session

At the meeting of the Andover Student Council Oct. 17, Rand Gesing, president, conducted the election of officers.

Those elected are as follows: vice president, John Giovinco; treasurer, Donald McAnern; recording secretary, Barbara Curran; corresponding secretary, Carol Winkley. Following these elections, Gesing appointed a number of standing committees.

Arthur Danforth, Student Council faculty advisor, reported to the group on the executive board meeting of the Eastern Massachusetts Association of Student Councils which was held at Lexington, Oct. 8. Mr. Danforth, a member of the executive board, told about the organization and the plans for the Eastern Massachusetts Association for the school year. The December meeting will be held at Lexington and the Andover High School Student Council will conduct a discussion group on the problem "How may a student council interest the administration, faculty, and student body in student council projects and modern student council philosophy?"
